

LASTPEPE (\$LASTPEPE)

Official Whitepaper v1.0

Built on Solana

The Final Frog. The Last Meme.

Executive Summary

LASTPEPE is a community-driven memecoin built on the Solana blockchain. The project combines internet culture, strong branding, transparent tokenomics, and community ownership. The goal is to create a recognizable digital asset and community ecosystem that can grow sustainably within the Solana network.

Vision

To become one of the most recognizable community-owned meme brands in the Solana ecosystem.

Mission

Empower community participation, reward creativity, maintain transparency, and build a lasting digital brand.

Why Solana

Solana offers high transaction throughput, low network fees, and an expanding ecosystem of users, developers, and decentralized applications, making it an ideal foundation for LASTPEPE.

Token Information

Attribute	Value
Token Name	LASTPEPE
Ticker	\$LASTPEPE
Blockchain	Solana
Standard	SPL Token
Decimals	9
Total Supply	1,000,000,000
Minting	Disabled
Buy Tax	0%
Sell Tax	0%

Tokenomics

Allocation	Percentage	Tokens
Presale	40%	400,000,000
Liquidity	30%	300,000,000
Team	20%	200,000,000
Marketing & Partnerships	10%	100,000,000

Presale Strategy

The presale allocation is designed to distribute ownership broadly among early supporters while funding liquidity and ecosystem development.

Liquidity & Market Stability

Thirty percent of supply is reserved for liquidity. Locked liquidity is recommended to improve transparency and community confidence.

Team Allocation

The team allocation supports development, operations, partnerships, and future expansion. A vesting schedule is recommended to align long-term incentives.

Marketing & Growth

Marketing funds will be used for partnerships, influencer campaigns, social media growth, exchange applications, and community initiatives.

Security

LASTPEPE intends to implement treasury transparency, wallet visibility, liquidity protection measures, and independent review processes where appropriate.

Roadmap

Phase 1: Foundation & Branding. Phase 2: Presale. Phase 3: Token Launch & DEX Listing. Phase 4: Partnerships & Ecosystem Growth. Phase 5: Governance & Community Expansion.

Risk Disclosure

Digital assets are speculative and volatile. Participants should perform independent research and understand the risks associated with cryptocurrency investments.

Conclusion

LASTPEPE combines the speed of Solana, the strength of community ownership, and the viral nature of internet culture into a single brand-focused memecoin project.

Official Motto

Many Pepes Came. Only One Is LASTPEPE.
